Project Management Method

*Nostalgia
Games*

- Build multiple part of the app individually and tested to make sure they were working.
- Then proceeded to integrate all the different parts together.
- Especially useful when implementing the various games into the app.

Challenges

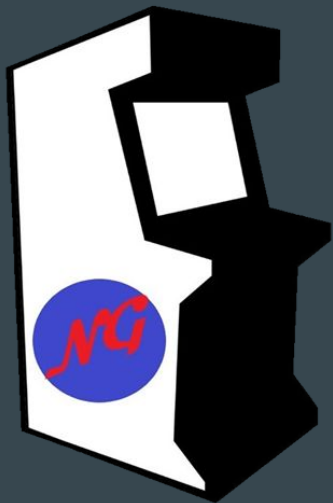

*Nostalgia
Games*

- Trying to integrate different games into our game page. - Neel
- Integrating the like and dislike buttons with the back-end. - Zaki
- Figure out how to handle the Nodejs -Weiyao
- Trying to integrate NoCaptcha reCaptcha into our project- Aashay
- Fully incorporating Heroku deployment with MongoDB sessions and storing unique session information for each user - Alex
